

Damelin Short Programme in Network Technologies

School of Media, Design and Information Technology

FACT SHEET

Type of programme

- Part-time
- Damelin programme / provider programme*

* Education providers like Damelin can offer their own, unique programmes that are not registered on the NQF. These are called provider programmes. Provider programmes are dynamic and market-driven, and focus on teaching specific skills. Provider programmes do not carry NQF credits and do not lead to national qualifications. Articulation is possible within Damelin.

About the School

The Damelin School of Media, Design and Information Technology proudly offers a combination of 25 diploma and short programmes. The programmes range from creative design disciplines such as film-making to the fascinating world of information technology.

Programmes include:

fashion, media, interior design, sound engineering, contemporary music, journalism, photography, film-making, TV & radio presenting, end user technology, programming and PC engineering.

The School of Media, Design and Information Technology aims to produce well-balanced and innovative graduates who are equipped for industry.

About the programme

This programme is designed for learners who would enjoy the networking environment. This programme will expose learners to networking, troubleshooting and implementation of networks.

The aim of this programme is to prepare you for the Microsoft external examinations (optional) through tuition, practice, formative and summative assessment.
